Abstract (Basic): RU 2013094 C

Patients with chronic suffocative (I) or non-suffocative (II) bronchitis are effectively rehabilitated by administering perorally and nasally the appropriate medicinal herb mixt. For treating (I) the compsn. comprises a 2:2:1:1 mixt. (dry wt.) of liquorice root, wild rosemary, oreganum and coltsfoot. In the case of (II) a 2:1:1:1:1 ratio of pine cone, liquorice root, plantain and sage leaves, and elder flower is employed.

USE - The herb mixt. can be used in pulmonology.

ADVANTAGE - Hospital treatment times and relapse frequency are reduced.
